The image displays two side-by-side smartphone screens showing a mobile registration interface. Both screens have a yellow header bar with the word "REGISTER". Below the header, there is a purple button with a document icon and the word "REGISTER". A yellow diamond shape is positioned below this button. The registration form consists of three input fields, each with a purple icon on the left: a person icon for "Username", a person icon for "Name", and a lock icon for "Password". Below the input fields is a purple button labeled "SIGN UP". At the bottom of the form area, there is a link that says "Already a member? Login Here". The status bar at the top of each screen shows various icons, signal strength, 100% battery, and the time 02:28. The bottom of each screen shows a white navigation bar with three icons: a dot, a home icon, and a back arrow.
