IT/UX professional with 5 years of experience, specialising in user experience, front-end development, digital innovation, and design systems.

I bridge the strategic realm of UX design with front-end development to deliver seamless digital experiences.

EXPERIENCE

IT CONSULTANT - UX DESIGNER @ CENTRAL PROVIDENT FUND BOARD

NOV 2022 - PRESENT

- Collaborate with product teams to deliver intuitive, user-centric digital services.
- Design, maintain and enhance CPF's Design Language System for CPF website and mobile app components.
- Conduct comprehensive design reviews to uphold design governance standards across all products.
- Provide Figma training to product owners and developers, empowering them to effectively communicate design concepts and translate design specifications into development.

EXECUTIVE SYSTEMS ANALYST - UX ENGINEER @ HOUSING & DEVELOPMENT BOARD

MAY 2020 - AUG 2022

- Lead designer and developer for the HDB design system.
- Design, maintain and enhance HDB design system and website components.
- Manage global navigation elements, footers, and common CSS and JavaScript files across digital services.
- Ensure adherence to accessibility standards (WCAG) and SEO best practices for digital services.
- Play a key role in the creation of wireframes, user flows, and execution of usability testing and user interviews.

TEACHING INSTRUCTOR @ FIRST CODE ACADEMY

NOV 2018 - AUG 2019

- Educate youth in coding exploration through Robotics, Virtual Reality environments, and Scratch.
- Teach various programming languages including HTML, CSS, and JavaScript.
- Design and plan class topics, learning objectives and activities.
